Mr. R. Keene Christopher, President
Air Krete, Inc.
P.O. Box 380
Weedsport, NY 13166

Dear Mr. Christopher:

Your recent submittal of information on Air Krete has been reviewed by a number of the Department Safety Officers.

It is the consensus of the group that Air Krete is an acceptable material for use on public buildings in Vermont. Please keep in mind that this Department does not have authority to regulate private dwellings.

The Department does not issue "Blanket" approvals for any material.

However, we will approve your material on a project by project basis.

Thank you for your inquiry.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Richard D. Jones'.
